

*“Bill made a choice that empowers him to keep doing what he loves—being present.”*

#### Empowered By

- Choosing home dialysis to spend days bonding with his grandson
- Continuous automated peritoneal dialysis (CAPD), which allows him to perform his multiple exchanges per day in the comfort of his family

#### Bill's Concerns

- Managing his diabetes and chronic kidney disease

#### Bill's Priorities

- Staying present in his grandson's life and spending quality time
- Remaining active with his passion for fishing and sports
- Maintaining his independence

Bill

At 50+ years old, one of Bill's greatest memories is teaching his grandson to fish, but spending three days a week traveling to the clinic for dialysis would keep him away from the pier.

So, he asked his doctor and chose home peritoneal dialysis empowered by Baxter. With Baxter's comprehensive products, training and support, Bill can carry on the tradition with his grandson.
